

Assignment Name - Components using JQuery

Problem Statement -

As a solution to this assignment, you are supposed to create the replica of following Bootstrap components using **Css(flexbox for layout) and JQuery only**. **You are not allowed to use bootstrap files**. Here is the list of components that you are supposed to create -

1. [Collapse component - accordion format](#)
2. [Navbar component](#)
3. [Modal component](#)

In your submission, you should create separate HTML, CSS and JS files for each of the components. You may create the most basic version of these components. **The components must be fully responsive**. You are supposed to use flexboxes for responsiveness. So, when your HTML file is opened, it would contain one the components, For example - The Navbar and it should show the behaviour exactly same as Original Bootstrap navbar. But your code must not use bootstrap to create it. You are supposed to write it from Scratch.

Here are some important points -

- 1) You are free to change the colors, font, icon etc. Extra points will be given for creativity.
 - 2) You must not use Bootstrap files to create them and you must not copy it from somewhere.
 - 3) Your components must be fully responsive.
-

Evaluation Basis

This project will be evaluated on following basis -

- 1) **Quality of CSS and HTML code** - Your website's CSS and HTML code should be of best quality possible and without any bugs.
 - 2) **Responsive Design** - Your website should be full responsive. It will be checked thoroughly for all the things that have been taught to you in the level.
 - 3) **Javascript and JQuery code** - Your Javascript code and JQuery code should follow the best practices taught to you in the level and should use modern javascript as much as possible.
 - 4) **Intuitive Thinking** - You will get marks for intuitive thinking and creativity. So try to be as creative as you can.
 - 5) **Originality of code** - Your code will be checked for plagiarism and if it's not original, it will be discarded with a negative skill score.
-

Deliverables from Candidate

- 1) A Text File containing the link of Github repository containing all your code along with images and other resources used in your website.
- 2) A Text file containing the link of Github pages where you have hosted these pages.

Create a folder containing both deliverables. Compressed all these into a ZIP/RAR format and then submit it on the assignment page

Warning - Do not submit incomplete or wrong assignments. They will result in negative skill score. Also, you will not get a second attempt at the assignment! So whatever score you get will be the final score
